

STUDY PRESENTATION

Antimicrobial resistance (AMR) is defined as the ability developed by microorganisms to tolerate antibiotic treatments. As a result, in both animal and human health, we are running out of effective tools to combat diseases and infections, posing a highly relevant issue today with direct impact on public health.

In recent years, due to the traditional, widespread, and inappropriate use of antibiotics in all areas of healthcare, the emergence of resistance has significantly increased. Furthermore, the transmission of these resistances among animals, humans, and the environment has been demonstrated. Therefore, it is crucial to always use them under the supervision of a healthcare professional, respecting the prescribed dosage and treatment duration.

With the aim of assessing the current situation of antibiotic resistance in companion animals, specifically in small mammals in the province of Valencia, we are conducting a study in which we will analyze various samples from healthy animals. To do this, we will need to collect a sample using a rectal swab. Additionally, a short questionnaire will be conducted to gather relevant data about the pets, which may influence the occurrence and transmission of AMR.

Thanking you in advance for your cooperation, best regards.

Animal ID (Species and Name/Case number): _____

Name of the Veterinary Center: _____

Sample collection and questionnaire execution date (yyyy/MM/dd): _____

INFORMED CONSENT

When filling out the following survey, I declare:

a) That I have been sufficiently informed about:

- i. The objectives of the research project, as well as the methodology to be used in it.
- ii. The role my pet plays in the research project.
- iii. The use that will be made of the information obtained through my pet's collaboration.

b) That my participation is entirely voluntary and free, and that I can withdraw from the study at any time.

c) That I have had the opportunity to ask questions related to the study, and I have received and understood the relevant explanations.

d) That I have full legal representation or legitimate rights to represent my pet.

e) That I have read and understand the contents of this document, comprehend the commitments I am making, and expressly accept them

Full name of the owner and DNI (Spanish identification number):

Animal name and microchip number: _____

Address and postal code: _____

Owner's signature:

GENERAL PET INFORMATION

Age of the pet: _____

Sex:

☐ Female

☐ Male

Does the pet live with other animals?:

☐ Yes*

☐ No

*If affirmative, which other animals?: _____

PET CLINICAL DATA

Does the pet have any chronic disease?:

☐ Yes*

☐ No

* If affirmative, which disease?: _____

Does the pet take any daily medication?:

☐ Yes

☐ No

* If affirmative, which disease?: _____

When was the last time the pet was treated with an antibiotic?:

☐ Currently

☐ More than a month ago, but less than six months

☐ More than six months ago

☐ Never

Indicates with which antibiotic/antibiotics the animal has been treated throughout its life:
