

## Article

**Supplementary Figure S1.** (A) Yam vine cuttings survival rate (%) of 17 Breeder's and one released yam genotype four weeks after planting (WAP). (B) Yam vine cuttings survival rate (%) of seven landraces 4 WAP.

**Supplementary Figure S2.** Yam semi-autotrophic hydroponics (SAH) survival rate (%) of two selected genotypes Tdr-Makakusa and Tdr95/19177 five weeks after planting (WAP).

**Supplementary Figure S3.** Tubers of variable sizes harvested from yam vine cuttings survival rate 12 weeks after transplantation. Scale bar: 1 unit=1 cm

**Supplementary Table S1.** Tuber weight, galling index (GI), nematode density in roots and rating of accessions inoculated with *Meloidogyne incognita*.

SE= Standard Error, GI= galling index, Rating=Host reaction rating (R=Resistant, HS=Hyper susceptible, na=not applicable due to shortage of planting material), Galling score: 1-5 where 1 represents 0 galls and 5 represents >30 galls per root system. Tubers weights with the same letter in the same column are not significantly different according to the SNK test ( $P \leq 0.05$ ); when no significant different no letter is assigned. Nematode g<sup>-1</sup> = number of nematodes per gram of root, <sup>a</sup> Means are values of seven replicates.

**Supplementary Table S4.** Tuber weight, plant galling index (GI), nematode produced and rating of accessions reaction to *Meloidogyne arenaria*.

SE= Standard Error, GI= galling index, Rating=Host reaction rating (R=Resistant, HS=Hyper susceptible, na=not applicable due to shortage of planting material), Galling score: 1-5 where 1 represents 0 galls and 5 represents >30 galls per root system. Tubers weights with the same letter in the same column are not significantly different according to the SNK test ( $P \leq 0.05$ ); when no significant different no letter is assigned. Nematode g<sup>-1</sup> = number of nematodes per gram of root, <sup>a</sup> Means are values of seven replicates.

**Supplementary Table S5.** Tuber weight, plant damage index (DI), nematode produced and rating of accessions reaction to *Scutellonema bradyi*.
