

Recent Research on Big Data Mining for Social Networks

Guest Editors:

Dr. Jisu Park

Department of Computer Science
Engineering, Jeonju University,
Jeonju, 55069, Republic of Korea

Prof. Dr. Joon-Min Gil

Department of Computer
Engineering in School of
Software, College of Engineering,
Jeju National University, Jeju
63243, Republic of Korea

Prof. Dr. Doo-Soon Park

Department of Computer
Software and Engineering,
Soonchunhyang University, Asan
31538, Republic of Korea

Deadline for manuscript
submissions:

30 September 2024

Message from the Guest Editors

This Special Issue aims to provide an overview of the latest technologies and trends in the ever-changing world of social networks and big data processing.

The main topics include, but are not limited to:

- Analyzing graph data to identify patterns and connections in networks;
- Real-time analytics and decision making using big data mining techniques;
- Social influence and opinion analysis;
- Text and sentiment analysis using large amounts of text data;
- Privacy and security with large-scale data collection and analysis;
- Applications of machine learning and deep learning;
- Fake news and information reliability;
- Extended reality experiences utilizing social media, AR, and VR;
- Applied technologies related to social networks and big data.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
