# Message from the Editor-in-Chief

The reporting of surgical, interventional, and anesthesiologic complications and adverse events (AEs) is essential for improving the quality of healthcare delivery and for standardizing and reproducing outcomes data. To address underlying issues in the reporting of complications and adverse events, it may be necessary to provide education and training, establish standardized definitions and reporting requirements, and create incentives for healthcare providers to report complications and AEs. The journal invites authors to address four components of perioperative adverse events: assessment, reporting, analysis of anticipatable factors, and management. The usability and practical implications of this information can have significant implications for academic and clinical practice.

## Aims

*Complications* (ISSN 2813-4966) is an international, peer-reviewed, open-access journal that focuses on the prevention, diagnosis, etiology, and management of complications in all aspects of basic, translational, and clinical research, as well as epidemiology. The journal seeks to offer best practices and expert experience, and recommendations on intraoperative and postoperative adverse events, published quarterly online by MDPI.

---

## Scope

- Surgical/procedural complications
- Complications
- Intraoperative Complications
- Postoperative Complications
- Adverse Events
- Conversion
- Sequelae
- Readmission
- Training
- Interventional Cardiology
- Interventional Radiology
- Anesthesiology
- Bariatric and metabolic surgery
- Breast surgery
- Cardiovascular surgery
- Colon and rectal surgery
- Dentistry and oral surgery
- Endocrine surgery
- Esophageal surgery
- Gastrointestinal surgery
- Head and neck surgery
- Hepato-biliary-pancreatic surgery
- Hernia
- Image modeling and analysis
- Medical conditions after surgery
- Neurosurgery
- Orthopedic surgery hernia
- Pediatric surgery
- Plastic surgery
- Robotics and instrumentation
- Surgical education, practice, and research
- Surgical translational research
- Thoracic surgery
- Transplantation
- Urology

---

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

### No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

### Rapid Publication

First decisions in 16 days; acceptance to publication in 5.8 days (median values for MDPI journals in the second half of 2023)
