Message from the Guest Editors

Sound land administration, efficient land management, and sustainable real estate markets are vital for good governance and are indispensable for economic, social, and environmental development. The way that people live and work is dramatically impacted by megatrends and disruptive technological developments such as cloud services, distributing network systems, AI, and machine learning. Major global challenges such as urbanization, cybersecurity and digital ethics, repetitive financial crises, and natural and man-made disasters, like the recent pandemic, also have a dramatic impact on peoples' lives. In particular, the COVID-19 pandemic is anticipated to slow the recent efforts toward the reduction of global poverty.

Technical, fiscal, administrative, legal, and policy issues related to land administration and land management have been changing, too, and improving in response to the UN Sustainable Development Agenda 2030. In this Issue, we invite research papers on best practices and innovative solutions and risk-mitigation measures, to improve awareness and preparedness for future disruptive changes.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
