Exercise and Nutrition for Human Health

Guest Editor:

Dr. Andy Franklyn-Miller

Centre for Health, Exercise and
Sports Medicine, University of
Melbourne, Melbourne, VIC 3053,
Australia

Deadline for manuscript
submissions:

closed (5 January 2024)

Message from the Guest Editor

As our understanding of metabolism and evolution evolves, there is a dichotomy as to whether calorific deficit, or the restriction of dietary components, are the way ahead in healthy lifestyle and longevity. Low-carbohydrate and ketogenic diets have shown great impact on weight management, but evolutionary work suggests that calorific restriction remains effective.

This Special Issue will focus on the research on calorific restriction versus dietary interventions for health and explore newer ingredient discoveries using AI platforms to positively affect the lives of consumers. We will explore the role of exercise as a supplement to nutrition and where the evidence lies in terms of supplements and fiber along with the effect of the gut microbiome on health. We will look at the role of muscle in maintaining homeostasis and that of the neuroendocrine system role in maintaining anti-inflammation.

Sciences, University of
Connecticut, Storrs, CT 06269,
USA

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Nutrition and Dietetics*)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
